

# SUMMER SPECIAL

## — LIMITED TIME OFFER —

SuperStretch Vinyl is now available at this special introductory price. Decide how much you want to order at these special prices...and STOCK UP! To receive special pricing, orders must be received by August 31, 2004. As a special incentive to stock up, if you order 50 cases or more, we are offering **FREE FREIGHT**. Free freight is available on first orders only. Call customer service now: 800-856-2852.

## SuperStretch™ Vinyl

**\$24.50**  
per case

Powder-free; 5 mil, rolled cuff; S, M, L, XL. 10 bxs/100 ea.

Part Number 81075

Buy 50 cases or more, get  
**FREE FREIGHT!**

# Q&A

## Is this a product that is new to the industry or new to Volk specifically?

There are obviously non-latex options, including nitrile and traditional vinyl. In addition, in the vinyl category, there are vinyls that offer better stretch than traditional vinyl. However, nothing on the market can beat SuperStretch™ Vinyl for latex-like fit and feel and vinyl-like pricing.

## How do you make the glove so much better?

Simply said, polyvinyl chloride's hardness is easily adjusted. Originally hard, polyvinyl chloride can be softened by adding plasticizers. We carefully managed the combination of ingredients until we created SuperStretch Vinyl.

## Is this glove designed to replace all Volk Vinyl sales?

No. Low priced as these are, there will always be a market for traditional vinyl.

## When do I recommend SuperStretch Vinyl?

These gloves pull on tight and fit snug, making this the choice in single-use glove protection for tasks requiring the highest levels of manual dexterity.

## In a nutshell, what is my selling message?

Choose SuperStretch™ Vinyl for tear resistance, better fit and comfort in a glove that does not contain natural rubber latex.

## Is SuperStretch Vinyl part of the free DispenseSafe™ dispenser program?

Absolutely! SuperStretch is specially packaged to accommodate DispenseSafe dispensers. This is a huge selling benefit. Call 800-856-2852 if you need more information on DispenseSafe.

## Is there a cost/benefit sell that works with this glove?

Snug fit improves sensitivity. Less breakage means less waste.

## Did You Know...

- According to the National Restaurant Association, of those consumers who purchase breakfast away from home, nearly one-third eat breakfast in their cars, making the auto the most popular place outside the home to fuel-up for the day.
- While sitting at your desk, lift your right foot off the floor and make clockwise circles. Now, while doing this, draw the number "6" in the air with your right hand. Your foot will change direction and there's nothing you can do about it.
- Pillsbury biscuits and sweet rolls account for 50% of total Refrigerated Baked Goods volume.

## New! Volk Protective Products Introduces SuperStretch™ Vinyl.

SuperStretch™ vinyl is a new single-use glove option that combines the comfort and tactile sensitivity of latex with higher tensile strength and tear resistance when compared to traditional vinyl gloves.

***This is the first durable and truly comfortable alternative to latex.***

SuperStretch™ Vinyl gloves pull on tight and fit snug, making this the choice in single-use glove protection for tasks requiring the highest levels of manual dexterity. The gloves specifications, including tensile strength of 11mpa (min) and elongation of 400% (min), demonstrate that the gloves can be pulled on tight with dramatically less chance of breakage.

The reduced breakage and waste afforded by SuperStretch™ Vinyl allows safety managers in foodservice, medical, processing, manufacturing and maintenance facilities to affordably provide latex-like protection with no concern for latex-allergies.

*With No Natural Rubber Latex — SuperStretch™ Vinyl Offers Latex-Like Fit And Feel. Ideal For Businesses Wanting To Avoid Latex Allergy Issues.*
