Dispense Safe™ Glove Dispensing Systems

**Save Time
Save Money
Reduce Risk**

Dispense Safe™ Glove Dispensing Systems

FACT: Foodborne illness costs the U.S. foodservice industry \$7.6 billion each year.

SOLUTION: The Dispense Safe™ system, featuring patented one-at-a-time glove dispensing, helps reduce the risk of foodborne illness, increases employee compliance, and helps you save on the cost of your glove program.

Start with premium Clean Hand® quality gloves.

- Made of premium materials in ISO 9002 quality plants
- Maintain uniform quality, sizing and performance
- Meet or exceed 2.5 AQL levels

Improve efficiency.

- Wall mounted dispensers free up counter space, reducing clutter in workspace
- Dispensers can be mounted at work areas and handwashing stations, saving time

Save money.

- Patented design assures one-at-a-time dispensing; reduces waste
- Enclosed dispensers reduce employee theft, lowering usage
- Wall-mounted dispensers reduce loss from boxes from falling on floor or sitting on wet counters

Reduce risk.

- Increase safety and health awareness
- Fully enclosed dispensers reduce chance of contamination
- Assure employees of your commitment to food safety
- Easy access to gloves helps increase employee compliance
